Calculation: Lets say you are looking at a \$150,000 primary residence in North Myrtle Beach
 You take the value of the home that the county assesses the property for
 $\$150,000 \times 0.04$ (4% primary) $\times 0.0932$ (millage)= \$559

This is for illustration purposes only, we can't determine what the county is going to assess the property for
