

Building Wealth in Today's Economy

Every Second Wednesday of the Month

Wealth Building: Do You Have a Plan?

If there's one thing we've learned from the recent real estate market, it's that there's more to investing than simply buying low and selling high.
That's speculation.

Experts will tell you investment is much more calculated. That means if you want to be a real estate investor, you'll need to know a lot more; More about the property; More about the market; And, especially, More about yourself.

At The Bliss Real Estate Group we want to be your resource for understanding the market as well as knowing what properties are "investment worthy".

But most of all, we want to help you understand why YOU want to invest in real estate; what are your long term and your short term goals.

In the end, your success as an investor probably depends on the answer to this question.

Invest in "What You Understand"

We will present an overview of the local housing market and discuss the current opportunities and pitfalls in the market.

Financing vs. Cash

Our guest expert lender will be on hand to discuss challenges and strategies for acquiring investment property in today's market.

Presented by:
