

My Arizona Home Team's
Monthly Home Improvement Tips
September 2009

Lawn Care

- Tip #1:** Water your lawn 1-2 hours before sunrise to prevent evaporation.
- Tip #2:** Check your sprinkler heads regularly to make sure they are operating correctly.
- Tip #3:** In September, water about every 4 days and less in the winter.
- Tip #4:** Fertilize about 3-4 times a year (once a season). Desert soils are very alkaline & need extra nitrogen, phosphorous, potassium, & trace elements.
- Tip #5:** Reduce your watering if you notice a mushy lawn, mushrooms or yellow leaves.
